See: Remark in General Rules.

### 6.8 SCALE PEANUT

#### 6.8.1 Qualification

Open to any scale free flight rubber powered model of either not more than 13" span or not more than 9" overall length excluding propeller.

#### 6.8.2 Documentation

The minimum documentation is to be one of the following:

(a) A general arrangement drawing of at least 2 inches wing span, plus one photograph or printed reproduction of the full sized aircraft. If the photograph or printed reproduction is not in colour, then an Authentic written colour description must be included.

**or;**

(b) A coloured 3-view (e.g. 'Profile' publication) to a minimum of 1/144 scale.

The competitor must also state in the documentation, the type of covering material used on the model.

#### 6.8.3 Flying Section

Each competitor is allowed up to 9 official flights. An official flight is counted each time the model is released for a declared flight. The times of the longest 2 flights (each rounded down to the nearest second) will be aggregated to form the competitor's flight score. Flights may be hand launched or from Take-off. If Take-off is successfully achieved, without pushing or similar assistance, then 10 seconds will be added to the flight time recorded.

#### 6.8.4 Appearance

### 6.8.5 Scoring

The order of marking in 6.8.3 and 6.8.4 will produce a ‘place’ in the Flying and Appearance sections respectively. Each contestants numerical ‘places’ in the two sections are added. The lowest overall totals then determine the final overall placing in the competition.

In the event of a tie, places shall be determined by referring to the appearance score, followed if necessary by reference to the flight scores, comparing first flights, then second flights. If there is still a tie, the places will be decided by a duration fly off.
